github.com

<https://docs.github.com/en/site-policy/privacy-policies/github-general-privacy-statement>

Business Operations: We use Personal Data for activities like billing, accounting, and compensation.

Communication: We use Personal Data to inform you about new Services, features, offers, promotions, and other pertinent information.

Inference: We generate new information from other data we collect to derive likely preferences or other characteristics.

Personalization: We use Personal Data to customize the Service to your preferences, to evaluate the effectiveness of enterprise business ads and promotional communications, and to ensure a seamless and consistent user experience.

Safety and Security: To promote safety, integrity, and security across our Services, we process Personal Data, using both automated and, at times, manual techniques for abuse detection, prevention, and violations of terms of service.

Service Provision: We use Personal Data to deliver and update our Services as configured and used by You, and to make ongoing personalized experiences and recommendations.

Troubleshooting: We use Personal Data to identify and resolve technical issues.

Ongoing Service Performance: Personal Data helps us keep the Services up to date and performant, and meet user productivity, reliability, efficacy, quality, privacy, accessibility and security needs.

Complying with and resolving legal obligations.

Delivering Professional Services: We use Personal Data to deliver training, consulting or implementation ("Professional Services").

Improving Professional Services: Enhancing delivery, efficacy, quality, and security of Professional Services and the underlying product(s) based on issues identified while providing Professional Services.
